Subject: Air Monitoring Group - Daily Update

The air monitoring group which includes two 6EN air technical specialists monitored Shell Deer Park Refinery, Shell Deer Park Chemical Plant, and Vopak Deer Park. Additionally, LyondellBasell - Houston Refining located on Lawndale Road was monitored, in route to Deer Park. No readings of significance were identified. 6EN and Superfund have agreed to coordinate and submit the daily report through the ESF-10 team lead OSC, Jhana Enders, to Superfund and Air Enforcement management.

Plans for tomorrow Four EPA 6EN field personnel plan to accompany the TAGA to provide additional air monitoring as needed. Targets planned for monitoring include Exxon Mobil Baytown Refinery, Exxon Mobil Baytown Chemical Plant, and Exxon Mobil Baytown Olefins Plant. If for any reason backup targets are needed, the following targets will be monitored: Equistar Chemicals, Enterprise Mont Belvieu, and/or Phillips 66 Pipeline - Pasadena Product Terminal.
